

Radiation has become an increasing health depletion over the past 50 years. This protocol outlines the major kinds and our solutions.

We have found four major radiation sources that are invading our health. They are from (1) Television (2) Cell Phones (3) X-rays/Radiation treatments and (4) Atomic Fallout.

**TELEVISION** is probably not the item you expected us to start with, but it is the most prevalent of all the forms of radiation. The cathode-ray tubes that we all knew in the televisions and the original computer monitors all broadcast a form of radiation. The early tubes of the 50s "leaked" considerably. The later tubes were better, but not by much. If you still have a tube TV put your arm in front of the screen when the TV is turned on and see what happens to the hair on your arm. Little by little the TV radiation has altered our thymuses, thyroids and reproductive organs. It is one of the major reasons for low thyroids and it did not happen overnight.

Three remedies are used in tandem to cover the damage. **Thymus and Thyroid Radiation, Antibody Dissolve-Ionized Esters** and **Radiation Ionized Cells**. Sometimes we find **Radiation Necrosis Blood** where the blood is breaking down because of radiation. With the television and/or other radiation damage, males especially have reproductive gland problems with **Radiation Sarcoma** and a retrovirus. Steaks have hormones in the United States. If you have hormone-laden food in front of a tube television or computer terminal, the radiation ionizes the esters which could cause weight gain. Put very clearly, your thymus and thyroid don't have a chance of recovering when they are decaying with radiation.

**Cell Phones** receive broadcasts from towers that do not stop with the antenna. The microwave signal goes into the brain and "cooks" it as surely as a microwave oven cooks the people in the house as well as the material in the microwave. Long ago we warned of this phenomena, even though the cell phone industry covered up the problem. We invented **Radiation Congestion**, a brain tumor remedy that needs a retrovirus to dissolve it. Sometimes the remedies **Radiation Brain** and **Radiation Pituitary** are needed with cell phone users. The symptoms of this issue include warm ears when talking on the cell phone, irritability with any lengthy conversation and fuzzy thinking. We even carry a phone chip called Ray Away to put on your phone and block the microwave from entering the brain.

### **SUMMARY OF REMEDIES**

(with range of mega bottles needed)

<b>ANTIBODY DISSOLVE IONIZED ESTERS</b>	2-4
<b>BONE RADIATION</b>	2-4
<b>CESIUM 132</b>	2-4
<b>CESIUM 134</b>	2-4
<b>CESIUM 137</b>	2-4
<b>RADIATION</b>	2-5
<b>RADIATION BRAIN</b>	2-4
<b>RADIATION CONGESTION</b>	2-4
<b>RADIATION CARCINOMA</b>	2-4
<b>RADIATION COMPLEX</b>	2-5
<b>RADIATION ENTERITIS</b>	2-4
<b>RADIATION FALLOUT</b>	1-3
<b>RADIATION HEART</b>	1-3
<b>RADIATION IONIZED CELLS</b>	2-5
<b>RADIATION IONOSPHERE</b>	1-2
<b>RADIATION ISOTOPE</b>	2-4
<b>RADIATION MICROWAVE</b>	3-6
<b>RADIATION MITOPLASMA</b>	2-4
<b>RADIATION NECROSIS BLOOD</b>	2-4
<b>RADIATION PITUITARY</b>	2-4
<b>RADIATION SARCOMA</b>	2-4
<b>RADIATION SKIN</b>	2-4
<b>STRONTIUM 90</b>	1-2
<b>THYMUS &amp; THYROID RADIATION</b>	2-5
<b>THYMUS STRONG</b>	4-6
<b>THYROID RADIOACTIVE IODINE</b>	
<b>REVERSE</b>	4-6
<b>URANIUM 240</b>	3-5

**X-RAYS** and **RADIATION** are used more and more in hospital settings. There is a specific vibration to x-rays. We made **Radiation X-ray** specifically for it. For some of you there was a time when fluoroscopes were used widely in shoe stores so that you could see how well shoes fit. They suddenly disappeared from stores when it was found that they were dangerous. Those of you who still carry the effect will find **Radiation Fluoroscope** helpful.

We frequently find that they induce radiation into the bone and begin a deterioration of the bone. **Bone Radiation, Radiation Carcinoma** with **Retrovirus Isotope** are solutions that are more and more necessary. We often see extensive radiation used with breast cancer and later **Radiation Enteriditis** is needed in the lungs. **Radiation Mitoplasma** is also related to x-rays and radiation. The group of remedies is so common in radiation damaged subjects that we made **Radiation Complex** in 2006 which includes all the remedies in this paragraph. The issue affects the blood and makes the liver and spleen swell considerably. It is common that a person can be x-rayed repeatedly and then treated with radiation therapy. Once a doctor was asked to guarantee that the radiation treatments would not create radiation carcinoma. He sputtered that radiation carcinoma was only a theory that was neither proved nor disproved. Accordingly he could not guarantee the safety and the patient was spared the damage. Our experience says this issue is far from theoretical. It is real.

**ATOMIC FALLOUT** is dwindling in importance after Chernobyl. We hope it stays that way. **Strontium 90** and **Radiation Fallout** are old remedies reflecting atomic fallout. **Uranium 240** is the spent uranium used in "dirty bombs" and was prevalent in Iraq and Bosnian wars. Not published in our Master User Guide is **Cesium 132, Cesium 134, and Cesium 137** which are rare contaminates. Again we hope it stays that way.

The effect of the government program called HAARP (High Altitude Aurora Research Project) may look like radiation fallout. It charges the ionosphere with a form of radiation which is actually "bounced" off the ionosphere for a variety of questionable purposes. We developed **Radiation Ionosphere** to cope with the effect felt by people and often related to Contrail/Chemtrail infections.

Radon comes up through the earth from certain rock configurations and is a deadly form of radiation. It doesn't have a long "half-life", but it does have a long effect. Many houses are required to have ventilation in the basement to exhaust it out of harmful collection. Over a period of time it can wear down your immune system just like bomb or power plant radiation. At the moment, the most common form of radon coming from the earth is Radon 220, so we made **Radon 220 Complex**. It isn't the most common form of radon and standard tests may well miss it. It is prevalent now because of the large earth changes that are causing its emissions like the methane emissions that have caused so many mine accidents around the world. There are specific tests that can be done for it

There are a few other isolated radiation remedies that could help. When one has a sunburn, the remedy, **Radiation**, will take away the "burn" feeling. Likewise **Radiation Skin** can take out the slow, non-burning deterioration of the skin from prolonged exposure to the sun.

For people who fly a lot on commercial airplanes, the remedy, **Radiation Heart**, will take away the resulting tension on the heart from airplane induced radiation.

Finally, there are the people who were given a radiation drink for over-active thyroids. The material in the drinks is called Iodine 131. It is intended to keep your thyroid dead. We made **Thyroid Radioactive Iodine Reverse** for those that would like to revive and repair their thyroids. The remedy **Thymus Strong** has been used to regrow thyroid after this poison or after thyroidectomies.
