

NAME	SYMPTOM COUNTER VIBRATION	BOTT LES	CONT ENTS	DESCRIPTION
2, 4 - D	2,4 Dichlorophenoxyacetic	3-7	C	Pesticide that is the 3rd most commonly used herbicide in the US in 2014. It is a synthetic auxin (plant hormone). It is one of the ingredients in Agent Orange and is sometimes contaminated with Dioxin. Dow Chemical uses it with soy after insertion of a bacterial aryloxyalkanoate dioxygenase gene. It is most associated with male infertility, Non hodgkin's Lymphoma and ALS in both genders.
AL CL FL	ALUMINUM CHLORIDE FLUORIDE		C	Water infiltrated chemicals often lodging in pancreas
ALFCF	ALUMINUM FLUORIDE CHLORIDE FORMALDEHYDE		C	Lethal water byproduct and food combination that can impair brains.
ALM DTX	ALUMINUM DETOX		C	Dissolves tissue-bound aluminum. Used often in Alzheimer's Disease protocol.
ALM FLR	ALUMINUM FLUORIDE		C	Newest means of fluoridating city water after sodium fluoride was declared poisonous. Affects brain (memory, dementia) and bones.
ALUM	ALUMINA		C	Metal toxin that gets in brain, bone, duodenum primarily. Often binds with formaldehyde.
AMALG	AMALGAMS		C	The toxicity of amalgams (silver-looking fillings that are actually mercury) is becoming legendary, especially in MS
AMPHET	AMPHETAMINES		CM	Stay awake pills. We find them causing permanent inflation (until antidoted) of veins and arteries.
ANV10	ANVIL 10+10	1-7	C	Antidote to insecticide popular for West Nile in Northeastern US.
ARSENC	ARSENICUM		C	Poison often used in pesticides, usually entering humans via food. Toxicifies muscles and involved in hair loss frequently.
ASBEST	ASBESTOS		C	Lung issues from old building with this form of insulation. Also used in the making of car brake shoes.
ASBFBR	ASBESTOS/ FIBERGLASS		C	Used in fireproofing steel in construction. Spraying is a lung hazard at construction sites, especially for electricians and probably other new commercial construction workers. Just as the disease, Mesothelioma, went with asbestos in previous decades, it may be revived with this asbestos combination.
ASP # 3	ASPARTAME 3		C	After the aspartame patent expired, several variations of the formula have been made. This form turns tyrosine into a killer of phenylalanine and tryptophan. It depletes the thyroid and liver (causing weight) plus depletes memory and mental acuity. It precipitates adult-onset Tyrosine Liver Thyroid Wasting Disease.
ASP DIG	ASPARTAME DIGESTION		MVB	Although our bodies generally now have no way to digest aspartame, there seems hidden in the DNA a way we can revive to digest this artificial sweetener. It would be better to digest this material in 5,000 foods in 90 countries than to fight it as a perpetual clog of the liver and a catalyst for Phenylketonuria (PKU).
ASP HYD	ASPARTAME HYDROGENIZED		C	See also ASPTM. The hydrogenized form is more devastating to some people. Headaches and dizziness from artificial sweeteners and all sodas (even decades later) from this because it "fries" your brain slowly. See also NAT FLV.
ASPTM	ASPARTAME		C	Headaches and dizziness from artificial sweeteners and all sodas (even decades later) from this because it "fries" your brain slowly.
BAR COD	BAR CODE ELECTROMAGNICITY		C	The remedy is designed to dissolve the electromagnetic paralysis of digestion caused by the electromagnetic charge induced into food by bar codes.
BEN	BENZENE ANTIDOTE		C	Common chemical toxin weakening especially pancreas, liver, and thymus. In most AIDS cases. See Thymus Strong.
BTK GMO	BACILLUS THURINGIENSIS GMO	2-5	T	BT Toxin, as this is nicknamed, is an old bacterial pesticide that has been genetically altered to become a toxin. It is designed to make holes in agricultural pests and seems to also make holes in the intestines of humans and animals who eat the food it is sprayed on.
BUG SPR	BUG SPRAY		C	Off the shelf sprays used for bugs that may affect your brain, lungs, skin, liver, gall bladder, intestines, kidneys, sinus, etc.
CABAMA	CARBAMATES		C	Pesticide, like organophosphates, that kills insects by inhibiting the formation of cholinesterase enzyme in the nervous system. Chemicals also store in the liver.
CAD	CADMIUM		C	Metal poison loving heart primarily
CAT SCN	CAT SCAN		C	Liquids swallowed before the cat scan for better results and sometimes strange after effects, especially w/bone infections.

CEM CMP	CHEMICAL COMPOUNDS		C	Wide-spread applicability to chemicals on skin and in intestines.
CEM OUT	CHEM OUT		C	Especially good for simple chemicals clogging liver. Often found with liver flukes. See LIV DTX for complex chemicals
CLRN	CHLORINE		C	Arteries are hardened by this plus it combines with other chemicals and metals as a binder
CO	CARBON MONOXIDE		C	Lung and liver conditions arising from leaking home heating systems, cars and bad air areas.
COM SPR	COMMERCIAL SPRAY		C	Government and corporate insecticides that interfere with your brain, lungs, nervous system, intestines, liver, gall bladder, kidneys. Often sprayed from planes and wind up on vegetables of supermarkets.
CRB TET	CARBON		C	Chemical used in some food processing, grease cleaning in industry and dry cleaning. Slowly makes a "fatty" liver.
CRN SRP	CORN SYRUP		T	Allergy that toxifies the hypothalamus and causes weight.
CTY WAT	CITY WATER		C	What a variety of toxins combines can mean to an unprotected tap water.
CYANAZ	CYANAZINE	2-6	C	A pesticide often found in ground water and drinking water. It is widely demonstrated to cause birth defects, reproductive disorders and mammary tumors in lab animals. It is essentially atrazine - a chlortriazine that was introduced in 1971. It was banned in the US in 1/03 after once being the 4th most widely used synthetic chemical pesticide.
DDT	DICHLORODIPHENYL TRICHLOROETHANE	4-6	C	One of the first pesticides used in the United states. It was sprayed widely from 1945 through 1972 when it was banned in the US and internationally in 1980. China stopped production in 2007. It is still legally used in some countries for malaria control and is still used in India for crops as of 2014. It remains in the tissue of many exposed before its ban and is capable of affecting gametes.
DIOX	DIOXIN		C	Lawn spray that upsets intestines and skin. A major component of Agent Orange. Sometimes found with whipworm.
DRG DAM	DRUG-DAMAGE AXON ENZYME RESTORE		MVB	Many drugs, including cocaine, heroin, methamphetamine, ecstasy and some pesticides - DDT, Dioxin - destroy an axon enzyme making ability in nerves. This destruction can be caused in the sperm of a fetus. The remedy seeks to restore the enzyme-making ability so that axons can be made again. Most effected would be the brain and cerebellum. Often used with Nerve Repair and Nerve Alive. See also Marijuana-Damage Axon Enzyme Restore
DRG RES	DRUG RESIDUE		C	For the residue of drugs, especially all the "caine" drugs, legal or illegal including cocaine. Often used with mercurius arsenic (MRC ARS).
EDB	ETHYLENE DIBROMIDE		C	Pesticide affecting respiratory area and breaking down immune system. Known for eye & skin irritation, liver clogging. Part of 99 contrail spraying.
ELC RES	ELECTRIC RESIDUE		C	Probable miasmatic condition in the liver causing sensitivity to electricity. Shows up after collection of electricity in system.
EST ART	ESTROGENS ARTIFICIAL		C	A group of artificial estrogens in our food that make us fat. The estrogen-based chemicals include Xenostrogens, Zeranol, Premerin and other pesticides, livestock fattener, beverage can liners, etc.
FBR GPM	FIBERGLASS/GYPSUM		C	Gypsum binds fiberglass in construction. Used mostly on steel beams to make them more fire-proof.
FLR LIT	FLUORESCENT LIGHT SENSITIVITY		ENZ	A blockage of enzymes in the Pulvinar (part of the Thalamus in the Diencephalon) causes a reaction to fluorescent lights, TV broadcasts (including flat screens) and computer screens.
FLRQLN	FLUORO-QUINOLONES		C	Chemical family in prescription drugs including Avelox, Cipro, Floxin, Levaquin, Mazaquin, Noroxin, Tequin and Zagam. So far Cipro, Floxin and Noroxin have been linked to severe tendon inflammation because of the presence of this ingredient.
FLUOR	FLUORIDE		C	Sodium Fluoride is slowly being proven to be dangerous poison that deteriorates the whole immune system.
FRM	FORMALDEHYDE		C	Formaldehyde suffocates the system by itself and binds many chemicals and metals, especially aluminum
FRM CHL	FORMALDEHYDE CHLORIDE		C	Two of the most readily binding chemicals in our environment. They will harden veins and arteries, clog thyroids, livers, gall bladders, lymph and brains. plus plus plus
GDLNM	GADOLINIUM		C	Gadolinium is used in medical imaging, airport security and X-ray systems. It is considered a safer form of contrast agent. When used as a contrast agent in kidney diseases it has caused nephrogenic systemic fibrosis or nephrogenic fibrosing dermopathy. The diseases resemble scleromyxedema and to some extent scleroderma.
GLPHST	GLYPHOSATE ANTIDOTE		C	The active ingredient of Monsanto's broad-spectrum herbicide. Roundup GMOs are substantially more saturated with glyphosate. It inhibits cytochrome 450 enzymes which (1) Detoxify the body of exonobiotics (chemicals that over-estrogenize humans) (2) interruptss gut bacteria. The effect induces many western diseases, obesity, depression, infertility and mind disruption.
GRAPH	GRAPHITE		C	Metal toxicity, usually of heart. Many machines use graphite as a form of lubricant.

HMD	HEAVY METAL DETOX		C	Designed to antidote that ion that all heavy metals have in common so that none can bind to tissues in the body. (Aluminum is not designated as a "heavy metal").
HYDR TX	HYDROCARBON TOXINS		C	Especially good for exhaust fumes for people who work around such. More applications to be tested
IG	INDUSTRIAL GASES		C	Lead, Arsenic, Chlorine and Mercury. Check on the T-1 (below where neck meets shoulder) plexus of nerves.
INOSIN	INOSINE		C	Portion of animal intestines widely used like a chemical in the food processing industry (especially frozen foods). Accumulates, blocks thyroid and other organs. Common to find it so accumulated as to need 20-40 bottles.
IOD PSN	IODINE POISONING		C	Iodine poisoning caused by a Thymus disease that binds iodine to thymocytes. The disease atrophies the Thymus and starves the Thyroid. The disease is known to cause excess fluid in the nose/pharynx, excess saliva, frontal headaches, emaciation (sometimes covered by excess weight, weakness and skin eruptions (ioderma). It is a primary block to all sterol activity. Hypothyroid and hypothyroidism have many other manifestations.
ISO ALO	ISOPROPYL ALCOHOL		C	Strong catalyst in turning fungus to cancer.
K2	K2	2-9	C	Antidote for a street drug made from bath salts.
KID RT	KIDNEY-RIGHT		C	Metal coagulates in the right kidney while the left kidney has a different function.
LD CYX	LEAD COCCYX		C	Deep-seated lead poisoning that general lead formula will not get .
LEAD	LEAD		C	Cause of ADD. Blocks calcium absorption into bones. Causes calf cramps. Children are most susceptible.
LEC LEC	ELEC COLEC		C	The collection of and sensitivity to electricity, usually based on ELC COL. Headaches, sleeplessness and fuzzy thinking are symptoms. Like radiation symptoms
LND	LINDANE		C	Common farm pesticide in intestines.
LNG POL	LUNG POLLUTE		C	Mild disturbances of lung from dust to fumes that lodge in the mucous tissue of the lungs.
MC RAD	MICRORADIATION PACKAGE		C	Combined and accumulated group of low-level radiation coming from a variety of sources. It usually most affects the thymus.
MCPA	2 METHYL-4-CHLOROPHOXY-ACETIC ACID	3-7	C	Pesticide used with cereal grains. It is also found in drinking water. Halmark symptoms of growth retardation in males and altered kidney function.
MED TOX	MEDICINE TOXINS		C	Most medicines have similar bases- prescribed or over-the-counter - and an excess can clog the liver, etc.
METHNL	METHANOL		C	(Wood alcohol) Widely used in the production of alcohol, artificial sweeteners, sodas, bottled water, powdered drinks (often from health food stores). Ingestion paralyzes eye muscles and may cause death. It also gravitates to the pancreas where it attracts pancreas flukes.
METOX	METAL DETOX		C	Heavy metals can come from the water, air, vegetables, etc. and lodge in a variety of body parts
MGM PZO	MAGMA PIEZO RADONOSIS COMPLEX		C	The magma of the earth rubbing on the encircling earth crust creates a radon of a different kind than is currently measured by science. There is a specific effect on the human creation of steroid in the bone.
MKUP HR	MAKE UP AND HAIR		C	For the chemicals found in hair and beauty supplies. Especially possible in hair salon workers
MLK PSN	MILK PASTEURIZATION POISON		T	Pasteurizing milk can easily be justified for protection from brucellosis or Bovine Tuberculosis (or both). Yet the pasteurization also enhances an animal albumin that (1)deteriorates pancreas islet proteins so that insulin production is lower and blood glucose is higher (2) deteriorates lymph ability to carry out dead glucose or dead glycine or dead glycogen. The result is a growing inability to process sugars (looking like classical diabetes) and holding sugar in the form of weight/fat.
MRC ARS	MERCURIAL ARSENIC		C	Compound found in drugs, legal or illegal. Stores in the adrenals and keeps them weak. . . until removed
MRC BRN	MERCURY IN BRAIN		C	Amalgam Mercury
MRC BRT	MERCURY IN BRAIN STEM		C	Amalgam Mercury
MRC CYX	MERCURY COCCYX		C	Usually, not exclusively from teeth. Interrupts nerve impulses; causes pain in area above seat; causes coccyx to go out of place.
MRC KID	MERCURY-KIDNEYS		C	Amalgam Mercury
MRC SPN	MERCURY IN SPINE		C	Amalgam Mercury

MRJ DAM	MARIJAUNA-DAMAGE AXON ENZYME RESTORE		MVB	Many drugs, including cocaine, heroin, methamphetamine, ecstasy and some pesticides - DDT, Dioxin - destroy an axon enzyme making ability in nerves. This destruction can be caused in the sperm of a fetus. The remedy seeks to restore the enzyme-making ability so that axons can be made again. Most effected would be the brain and cerebellum. Often used with Nerve Repair and Nerve Alive. See also Drug-Damage Axon Enzyme Restore.
MSG	MONOSODIUM GLUTAMATE		C	Causes disruption in concentration ability, some dizziness; adds to ADD. Generally scrambles the brain.
MSMA	MONOSODIUM METHYL ARSENATE	1-4	C	MSMA is used as a weed killer in a large variety of commercial home products.
NASID	NASID		C	The common ingredient in non-steroidal, anti-inflammatory drugs like aspirin. The cumulative deposits smother and kill nerves over a period of usage.
NAT FLV	NATURAL FLAVORS		C	The generic term leads you to believe the flavors are solely composed of substances grown in nature. Many times the acids (all flavors are made with acids) are similar to the components of aspartame and monosodium glutamate (MSG) together. They deteriorate the pituitary and nerves like a disease in our opinion. They seem to guarantee mental deterioration, nerve problems and weight. Not all products listed with natural flavors have this combination of acids. Because this material is in over 5,000 products it is not at all uncommon to need 20 to 40 bottles. This is a very dangerous issue in our society.
NEONIC	NEONICITINOIDS	3-7	C	The neonicotinoid imidacloprid is currently the most widely used insecticide in the world. The neonicotinoid family includes acetamiprid, clothianidin, imidacloprid, nitenpyram, nithiazine, thiacloprid and thiamethoxam. Neonicotinoids are now fairly agreed to cause the European Honey Bee Colony Collapse. We find them in honey and foods that are dependent of bee pollination. The pesticides make insects more susceptible to pathogens.
NEOTAM	NEOTAME	2-11	C	<i>A Monsanto synthetic sweetener (approved by the FDA in 2003) 30x sweeter than Aspartame and 13,000x sweeter than table sugar. It is basically an addition to the aspartame formula and is nicknamed, "aspartame on steroids". It reduces phenylalanine (ADD) and increases formaldehyde. It increases sugar desire and increases weight as well as scrambles the brain.</i>
NICKEL	NICKEL		C	Often collects in the arteries causing blood clots. Sometimes involved in tumor masses.
NIK CYX	NICKEL COCCYX		C	Causes burning sensation in veins and arteries. Is the basis for cancer people who have so much pain accompanying the disease.
NIT	NITRATES/NITRITES		C	Especially likes the heart and slows it down. Often causes Arrhythmia.
NITHZN	NITHIAZINE	3-6	C	In the family of neonicotinoids (Colony Collapse probable cause). It settles into nerves like DDT and causes tumors. (with similar symptoms for taking too much nicotine). Used in fly traps.
O PHOS O	ORGANOPHOSPHATES OXIDIZED		C	Dangerous bug/pest sprays that block brain dendrites, liver functions and life functions in general.
PAN PSN	PANCREAS POISON		C	Polychlorinated Biphenyls are a byproduct of processed white sugar used in over 6,000 foods from a variety of cultures. Biphenyls are a product of benzene. Benzalkonium chlorides are used for a variety of disinfectants and fungicides prepared in aqueous solutions. Polychlorinated Biphenyls are highly associated with pancreatic cancer.
PHN PPL	PHENYLPROP- ANOLAMINE		C	In 2001 the FDA declared this chemical as unsafe because (even in one dosage) it causes strokes (particularly in women). It was in many over-the-counter drugs including nasal sprays and many synthetic hormone replacement therapies.
PLAT	PLATINUM		C	Some forms of excessive chemotherapy can leave a platinum toxicity in the liver that is more lethal than the disease that precipitated chemo.
PLT SUL	PLATINUM SULFIDE		C	Some forms of chemo therapy use platinum bound with sulfide that frequently poisons the liver. See also PLAT (a non-bound platinum)
PR SLDG	PRESERVATIVE SLUDGE		C	Preservatives leave a sludge that combines hydrogen with phosphates and floats up to the brain, arteries of the brain and neurons of the brain.
QUK STP	QUICK STOP		C	A very special combination designed to quickly stop drug craving and eating craving. Take 100 drops every 2 waking hours for 4 days and then 100 drops 3x/ day for 30 days.

R 220 CX	RADON 220 COMPLEX		C	Escaping from the earth, this colorless, scentless gas is invading our atmosphere because of the increased heating inside the earth. This is a reflection of the true cause of global warming - from inside the earth. It breaks down mitochondria, blood cell mitosis, and forms lymphoma-like conditions.
RA FALL	RADIATION FALLOUT		C	Every once in awhile nuclear fallout dumps from the stratosphere from long ago tests. People become irritable and have headaches.
RA FALL	RADIATION FALLOUT		C	Usually from atomic tests that explode into the atmosphere.
RAD BRN	RADIATION BRAIN		C	Radiation collecting in head causes sleeplessness, fuzzy thinking and headaches. Usually seen with RAD MIA, perhaps mobile phones
RAD CAR	RADIATION CARCINOMA		C	Destruction of cells caused by radiation. Often used with BON RAD and other radiation remedies.
RAD CPX	RADIATION COMPLEX		MC	Includes R Miasm, R Carcinoma, RV Isy, R Enteriditis, R Bone R Heart and R Mitoplasma as the most common group we see with radiation exposure.
RAD FLR	RADIATION FLUOROSCOPE		CV	In the 50s mostly in shoe stores fluoroscopes were used to see the fit of shoes. You stood on a platform, put your feet under a hood and peered through a wide scope to see a greenish sort of X-ray of your feet (in shoes). It seemed that no one knew that those fluoroscopes left a deposit in the bones like old (and current) X-rays. The effect is to slowly lower the immune system via the bones and thymus.
RAD GRM	RADIATION GERM CELL		C	A radiation destruction of the germ cell that is so fundamental to many cell growths in the body. The radiation can come from the sun, radon and radiation fallout. It especially affects thyroids and will contribute to any hypothyroid condition.
RAD HRT	RADIATION HEART		C	Common in frequent flyers, so included in Flyers Heart. Could now come from many more sources than airplanes
RAD ICL	RADIATION IONIZED CELL		C	The ionic cell exchange system of digestion has been altered, mostly because of radiation from tube television, tube computer monitors, cell phones and airplane radiation. Natural ionic transfers are blocked by man-made ionization and that causes digestion abnormalities, lymph sluggishness and blood breakdown. This remedy antidotes the blocking ionization so that the natural ionic transfer can resume. Please replace your tube mechanisms with LCD or plasma screens. See also Radiation Ion Block
RAD INS	RADIATION IONOSPHERE		C	HAARP (High Amplitude Aurora Research Project) is changing the ionosphere into a micro-wave type of both an emitter of radiation and a magnetism distorter. The sun drives the power through this outer atmosphere earth bubble so that we are slightly cooked and distorted. Chemtrails intensify and further twist these rays plus make oxygen less available. Earth changes and current ground ELF waves add more to the effect. We become short-tempered, confused, forgetful, disorientated, short of breath and anxious. This sickness is vague but sure, making us feel unsure. This remedy goes well with the remedy SAFE.
RAD NBL	RADIATION NECROSIS BLOOD		C	Often used with RAD CAR and RV ISY. It is possible that many forms of radiation could start a necrosis of the blood as well as bones.
RAD PIT	RADIATION PITUITARY		C	From proximity to nuclear power or waste. Causes darkening of teeth and decay of teeth nerves
RAD SKN	RADIATION SKIN		C	Leaving no marks this condition makes dry skin and sensitivity to tv, computer and electrical radiation.
RAD XRY	RADIATION X-RAY		CV	X-rays have a different isotope and effect from general radiation. The effects can store in the body for decades and are cumulative. The Bones, Thymus, Thyroid and Spleen seem most affected. The whole immune system is reduced and cells self-destruct more easily.
RAYON	RAYON		C	Allergies to rayon material
RND UP	ROUND UP	2-5	C	A popular (toxic) lawn and garden weed killer. Combined with its major ingredient, Glyphosate, it is known to be a killer of embryonic, placental and umbilical cord cells. It leads to low birth weights, birth defects and miscarriages. It often is felt in respiratory tracts after usage.
SALCYL	SALICYLATES	1-4	CM	A popular ingredient in pain medications, used as an anti-inflammatory and vascular dilator. (Aspirin is one of the best known forms). It produces electrolyte imbalances, respiratory alkalosis (hyperventilation), nausea, vomiting, diaphoresis (increased sweating), vertigo, tachycardia, hyperactivity, agitation, delirium, hallucinations, convulsions, lethargy, stupor and hyperthermia.
SHMP TX	SHAMPOO TOXINS		C	Chemicals used in most commercial shampoos are designed to also keep lice down by using cyanide and other nerve-affinity chemicals. The results may give nerve reactions like shaking and jerking especially to those with inherited nerve weaknesses
SILC	SILICONE X		C	Silicone breast implants and general silicone picked up in the air of factories, etc.

<b>SOD FBX</b>	<b>SODIUM FLUORIDE BAUXITE</b>		C	One of the toxins entering our water supply with the adding of the poisonous fluoride. It loves to clog thyroids and is especially adept at paralyzing the diencephalon (hypothalamus, thalamus, epithalamus, pituitary and pineal).
<b>SOD FCF</b>	<b>SODIUM FLUORIDE CHLORIDE FORMALDEHYDE</b>		C	Lethal municipally treated water and food combination that can impair brains.
<b>STRON</b>	<b>STRONTIUM 90</b>		C	Strontium 90 is a form of radiation fallout or contaminate of nuclear explosions or bombs (usually).
<b>TCV ANT</b>	<b>THIMERSAL-CONTAINING VACCINE ANTIOTE</b>		C	For the mercury used in some vaccinations.
<b>THAL</b>	<b>THALLIUM ANTIDOTE</b>		C	A major nerve poison player in MS cases from dental work.
<b>TST ECT</b>	<b>TASTE ECSTACY</b>		C	A food additive in manufacturing and in non-regenerating, genetically altered food. It is structured like a steroid and causes swelling in the body like a steroid drug. It paralyzes the Amygdala which starts a cascade of hormone problems. It is designed like MSG to make us think a food tastes good, but is more dangerous for emotional locking into the Amygdala and stymied thinking overall. It tests in amazingly high numbers (from 48 to 96 bottles). It seems to go well with IGF Rebuild.
<b>URN 240</b>	<b>URANIUM 240</b>		C	Spent Uranium is from used rods of power plants. It was used to make "dirty bombs" in Bosnia, Afghanistan and Iraq. Like A bomb tests spread Strontium 90 into the world atmosphere, Uranium 240 is in the atmosphere and dropping on the world. It contracts many kinds of tissue, interrupts cell division ( the major element of cancer) and contributes to weight by binding iodine in the thyroid.
<b>VAC HPV</b>	<b>VACCINE-HUMAN PAPILLOMA VIRUS</b>		R	For the vaccine touted to prevent Human Papilloma Virus (HPV).
<b>VYN COG</b>	<b>VINYL CONGESTION</b>		C	Some people are allergic to plastic or vinyl, even to sit on (while clothed).
<b>WELD WF</b>	<b>WELDERS WHIFFS</b>		C	Designed for the arsenic based fumes that welders are primarily exposed to. See also IG
<b>ZNC CLD</b>	<b>ZINC CHLORIDE</b>		C	Imbalances electrolytes for digestive and adrenal distress and locks in respiratory distress. Part of contrail spraying in 99
