

NAME	SYMPTOM COUNTER VIBRATION	BOTTLES	CONTENTS	DESCRIPTION
00 COCO	'00 CONTINUAL COUGH		VB	11/00 combination masquerading as the seasonal flu (that isn't a flu). Cough, like post nasal drip, queasy stomach, fatigue, malaise, brain tiring.
SPR DEL	2001 SPRING DELIGHT		VB	"Flu" (not) courtesy of contrails. Starts as intestinal flu that travels to brain and settles in liver for sleeplessness. Mild sweats/chills. Mild to searing bronchial cough. Composed of Rota, G. Meningitis, Clostridium, Swine Pneumomegalovirus. Often wit
99 EP	99 EPIDEMIC		VB	Flu-like symptoms in 25% of the population are 4 viruses and 2 bacteria. May ALSO need EDB, ZINC CHLORIDE, ASPERGILLUS FUMIGATUS.
A MSQT	A. MOSQUITO		PB	A mosquito disease that rapidly depletes energy after a bite, affects attitude so that one loses confidence in themselves and makes life look like a huge effort. Immunity decreases with time.
ABBB	ACHEY BREAKY BONE BUG		VB	A strange mixture including the virus (Dengue) nick-named "Break Bone Fever". Symptoms include less fever and more of a lower, mid-back pain and flu feeling, yet without the usual runny-nose and cough. This is not a flu and FFF therefore has no effect. In the fall/early winter we often see Polio Meningitis with similar symptoms joint and tired feelings but without the achey midback feeling.
ACT VIR	ACTINO VIRUS		V	Crowds the pituitary causing weight gain in pear-shaped bodies.
ADENO	ADENOVIRUS		V	This major family of viruses loves to lock into lymph and/or muscle tissue connected to glands
ADEN A	ADENOVIRUS GROUP		V	Virus known to be on the tissue of many parts of the body.
ADEN B	ADENOVIRUS GROUP B		V	Virus known for respiratory, pneumonia and urinary tract issues. Often holds together combinations
ADEN C	ADENOVIRUS GROUP C		V	Virus known for liver and lymphatic issues. Often holds together combinations with liver.
ADEN D	ADENOVIRUS GROUP D		V	Virus often known for liver, gall bladder issues. Often holds together combinations with liver.
ADEN E	ADENOVIRUS GROUP E		V	Virus often known for liver, gall bladder, respiratory and head issues. Often holds together combinations.
ADEN F	ADENOVIRUS GROUP F		V	Virus known for intestinal issues. Often holds together combinations with liver.
ADEN G	ADENOVIRUS GROUP G		V	A class of adenovirus not yet recognized in science.
ADEN H	ADENOVIRUS GROUP H		V	Virus not known for any specific areas, other than the flesh of the body.
ADR VIR	ADRENAL VIRUS		V	Virus causes adrenal exhaustion (especially around menopause). Also look at Sleeping Sickness Parasite & ADN STN.
ANA VIR	ANESTHESIA VIRUS		V	Virus in liver created by anesthesia from surgery or dentistry. Weight gain and/or possible hair loss follows.
ARBO	ARBO		V	Arbo Virus - Parasite-born viruses and fevers. Often causes disorientation after teeth work. Much worse in low nutrition settings.
ARENO	ARENO		V	Areno Virus - Meningitis forms of diseases carried by ticks, fleas and animals.
AVN EV	AVIAN ERYTHROBLASTOSIS VIRUS	2-5	V	AKA Avian Leukemia Virus, AKA Avian Retrovirus. In humans this is an "almost" blood cancer that weakens red blood cells, especially in their ability to absorb oxygen. The function of a human liver is decreased by this virus.
BAR CNG	BAROMETRIC CHANGE		VF	Congestion in head makes person decrease in function with altitude. From headaches to kidney backup to lymph coagulation
BET TK	BETTER THINKING		V	A virus that causes confused thinking and processing.
BET TK2	BETTER THINKING 2		V	A virus that causes confusion, paranoia, disorientation, extreme forgetfulness and anger.
BRD BUG	BIRD BUG		VB	The governments have gone to great lengths to warn the public that Influenza A H1N5, the Avian Flu of 2005 will be lethal, like the Spanish Flu of 1918. This remedy includes that formula plus a bacteria carried only by bugs, like mosquitoes. Like the West Nile Virus this seems to be spread by mosquitoes biting birds. It also seems to match various reports that the governments are raising mosquitoes. Hmm. So far all cases of Avian Flu we have seen have only been cured by the combination of virus and bacteria.
BRD BG2	BIRD BUG 2		VB	As if the original Bird Flu epidemic scare were not enough, a second form was found and successfully antidoted. We hope this is not needed on a wide-spread basis but we are releasing it just in case.
BLK TRD	BLOCKED THYROID		VB	Two viruses and 2 bacteria with a strange propensity to gang up on thyroids everywhere

BOCAVR	BOCAVIRUS HUMAN	1-4	V	Currently (12/14) classified as a parvovirus, it was discovered in humans (formerly only in cows) in 2005 by Swedish scientists. It has risen to the 4th most common virus in respiratory samples, following Respiratory Syncytial Virus (RSV), Adenoviruses and Rhinoviruses. It has been found in lung and intestinal cancers, plus it can make its own form of hepatitis (similar to the pattern of Rota Virus). It causes a viral pneumonia, (usually with other viruses) with characteristic symptoms including fever, cough, runny nose, audible crackling (pneumonia symptom) and headaches.
BON CRK	BONE CRACK INFECTION		VB	When a bone is only cracked it invites several forms of Klebsiella different from that of the standard BON INF.
BON FLU	BONE FLU		V	A form of influenza that settles in the bones (and often the brain) causing collection of fluid in body (ascites). Like LYM GUT
BON PAP	BONE PAPILOMA		V	A form of papilloma preferring bones. Included in OST ART.
BON PCT	BONE PUNCTURE INFECTION		VB	One of several ways infections start in the bone . . . and spread.
BPNMV	BOVINE PNEUMOMEGALOVIRUS		V	Like CMV, this virus locks into the lymph trapping oxygen around cellular fluid
BSE	BOVINE SPONGIFORM ENCEPHALITIS		V	The virus that causes Mad Cow disease has been around for a long time. It's inherited form is called Creutzfeldt- Jakob Disease (CJD)
BRN FLU	BRAIN FLU		V	A virus lodged in the brain, thought to especially effect the epiglottis and possibly sleep apnea.
BNB	BRAIN NERVE BLOCK		VB	Virus/Bacteria/Fungus group blocks ability to get words out. Involves Posterior/Anterior pituitary lobes.
BIDV	BURSA INFECTIOUS DISEASE VIRUS		V	A member of the Aribirnavirus called IBDV (Infectious Bursa Disease Virus) It replicates in chicken embryo fibroblasts rather than in epithelial tissue. It causes an acute lymphoproliferic condition in chickens that involves the bursa of Fabricus (which acts like a thymus). The immune system does not develop properly, resulting in an inability to resist other infections. There is nephrosis. Testing shows it can enter the human lymphatic system with different negative effects. It can cause a swelling spleen and liver via the lymphatic system. It becomes the equivalent of a lymphorrhagic virus. The high temperatures it can survive make it possible to transfer in cooked eggs and/or chicken. Eggs in vaccines and genetically altered food are also possible transfer agents..
CIEV	CANADA INNER EAR		V	A form of stomach flu starts and leads to dizziness, imbalance and mild-to-strong forms of immobility and/or vomiting
CGTS	CAN'T GET TO SLEEP		VB	Difficult getting to sleep, but can sleep long afterwards. Usually accompanied by a "nervous stomach" and sometimes racing mind. See INSOM
CAT ALG	CAT ALLERGY		VP	The effect of long-term Toxoplasmosis leaves a residue in the kidneys
CEM ALG	CHEMICAL ALLERGIES		VB	A group of pathogens in the liver that seems to hold instead of process chemicals. The chemicals can range from chemo to industrial derivatives of chemical processes.
CHC MOD	CHOCOLATE MODERATION		V	If you will eat chocolate when it's around, then you have it. Chocolate is a nerve irritant and this craving deteriorates the nerves.
CLD CLP	COLD CLIPPER		VB	First signs of colds as well as ongoing colds. Fast Flu Fighter and Strep may also be involved.
CLD CLP#2	COLD CLIPPER #2		V	Two very common viruses that cause cold symptoms and are the most well-know cold viruses.
CLD H&F	COLD HANDS AND FEET		VB	Brain fungus/virus condition that blocks the thyroid function. Thyroid is temperature controller. Often works astonishingly swiftly.
COLTI	COLTI VIRUS		V	Colti Virus is the cause of Rocky Mountain Spotted Fever. The symptoms of RMSV are very similar to Lyme disease - Always tired, heavy feelings in arms, varying degrees of achiness, lethargy and exhaustion.
CON ANG	CONTRAIL ANGER		VB	Combination that "eats" the liver and white blood cells simultaneously so that anger often accompanies both digestive difficulties and immune loss.
CON FUS	CONTRAIL FUSE		VFC	Another dumping, this time with the intention of breaking down the blood/brain barrier so that we are susceptible to multiple infections. We see this as a fuse to a plague-like dropping to come later. Current symptoms are headaches, flu-like malaise, sniffles and stuffiness, often only on one side of the nose. Some subjects take on a squint with eyes.
CON FUS	CONTRAIL FUSE		VFC	Another dumping, this time with the intention of breaking down the blood/brain barrier so that we are susceptible to multiple infections. We see this as a fuse to a plague-like dropping to come later. Current symptoms are headaches, flu-like malaise, sniffles and stuffiness, often only on one side of the nose. Some subjects take on a squint with eyes.

CON NRV	CONTRAIL NERVE VIRUS		V	Another dump from airplanes. Especially affects lung nerves, but also central nervous system to all the organs so that there is weakness in organ function.
CON OWY	CONTRAIL OWYS		VBC	The symptoms of this chemtrail combination start in the throat with big lumps and soreness. The infection moves to the sinus and causes a very runny nose. It settles into the abdomen with intense spasms. If untreated it will last for 3-4 weeks and then become a malaise time bomb until the next group reactivates the symptoms.
CON SIN	CONTRAIL SINUS PLUS		VBC	A dumping that causes severe sinus problems plus goes into the respiratory system. The ingredients are not things you want your system to try to fight off itself, because our bodies currently have no mechanism for disposing of these elements.
CVT VR 1	COVERT VIRUS GROUP		V	Group of viruses released in previous periods and in 2008 to weaken the CNS
CXS A16	COXSACKIE A16	2-6	V	A meningitis virus that causes hand, foot and mouth disease
CXS A24	COXSACKIE A24	2-6	V	A meningitis virus that is considered the cause of Acute Hemorrhagic Conjunctivitis (AHC) which is a highly contagious epidemic disease characterized by painful conjunctivitis, subconjunctival hemorrhages and, in rare circumstances, neurological symptoms. Fever, malaise, sore back, hypotonia, facial palsy, white of eyes as well as eyelids (outer and inner) are blood shot.
CXS A 7	COXSACKIE A7	2-6	V	A meningitis virus that causes polio-like paralysis.
COXSAC	COXSACKIE B		V	Virus loving hip bones. A binder for so many other viruses, bacteria and residues. There are other coxsackie letters with numbers available for special order.
CXSC G	COXSACKIE G		V	A virus yet to be discovered by science that invades the central nervous system. It often combines with other viruses to cause a pervasive tiredness. It magnifies herpes break outs in the genitals or lips and continues to cause eruptions even after herpes has been cured. It acts like the granddaddy of coxsackie and herpes outbreaks.
CCHF	CRIMEAN CONGO HEMORRHAGIC VIRUS	2-5	V	<i>Crimean–Congo hemorrhagic fever (CCHF) is a widespread tick-borne viral disease that is endemic in Africa, the Balkans, the Middle East and Asia. In first-hand exposure, typically, after a 1–3 day incubation period following a tick bite (5–6 days after exposure to infected blood or tissues), flu-like symptoms appear, which may resolve after one week. In up to 75% of cases, signs of hemorrhage appear within 3–5 days of the onset of illness followed by mood instability, agitation, mental confusion and throat petechiae, soon followed by nosebleeds, rainbow urine and vomiting, and black stools. The liver becomes swollen and painful. Disseminated intravascular coagulation may occur as well as acute kidney failure and shock, and sometimes acute respiratory distress syndrome. Second-hand, contagious exposure is often virtually symptomless except for liver swelling and intermittent fever.</i>
CMV	CYTOMEGALOVIRUS		V	Cytomegalovirus, often associated with mononucleosis, is a herpes that affects nerves as well as organs and blood.
CMV CAL	CYTOMEGALOVIRUS CALCIUM		V	Mononucleosis type of attack on parathyroid/adrenals that binds with calcium to make person feel tired and to slow calcium movement in body.
CMV MEN	CYTOMEGALOVIRUS MENINGITIS	3-5	V	Cytomegalovirus Meningitis is one of two causes of glandular fever. (Epstein Barr Meningitis is the other). It is a different version of the virus in our CMV remedy. It makes glands swell, including the whole hypothalamus (which leads to weight and hormone issues). It can be in the liver causing pot bellies. It can be in the heart and lungs, causing easy windedness.
CMV NRV	CYTOMEGALOVIRUS NERVES		V	Makes nerves achy all over and makes person simultaneously tired (like mononucleosis)
DAC	D.A.C.		VB	Diphtheria/ Anthrax/ Coxsackie - Hits the lungs and comes from stratospheric bombing.
DEP SIN	DEEP SINUS		VBF	Where sinus and gums meet the throat, the shared infection makes sinus and teeth problems perpetuate each other
DNG	DENGUE		V	A hemorrhagic fever known as Break Bone in the Caribbean, India, Tahiti and warm weather climates.
DIG ROB	DIGESTION ROBBER		VF	Stunts nerves to muscles of digestive organs plus virus lodges in liver. Sleep problems often accompany.
DOG VIR	DOG VIRUS		V	Virus whose major characteristic is to give board-like stiffness upon waking. Few signs of coming felt in 1-2 days before.
DRG VIR	DRAGON VIRUS		V	Herpes # 6 which makes blood cells swell. One of the 2 herpes remedies taken to shorten miasm remedy time. SEE SWT VIR.
DCT CON	DUCT CONTRACTUS VIRUS		V	There are many ducts throughout the body, including bile ducts, breast ducts, etc. This contracting virus impairs function enough to create Ductal Carcinoma (DCT CAR).
EBOLA	EBOLA		V	The infamous virus that has made it from Africa to the Dominican Republic by mid 1997
ECHO	ECHO		V	Sometimes like a viroid in the spinal cord. Most often with entero bacteria. Affects liver considerably.

ELC BAL	ELECTROLYTE BALANCE		V	Pancreas-based residue causing kidney to discharge potassium, sodium and chlorides (electrolytes). Tiredness, muscle aches, memory interference.
ENT V65	ENTEROVIRUS 65	2-5	V	<i>Little is detailed in science as to specific symptoms. In general enteroviruses are known to cause intestines and respiratory symptoms with possible conversion to polio viruses. This virus has been found also imitating hepatitis.</i>
ENT V66	ENTEROVIRUS 66	2-5	V	<i>Little is detailed in science as to specific symptoms. In general enteroviruses are known to cause intestines and respiratory symptoms with possible conversion to polio viruses.</i>
ENT V67	ENTEROVIRUS 67	2-5	V	<i>Little is detailed in science as to specific symptoms. In general enteroviruses are known to cause intestines and respiratory symptoms with possible conversion to polio viruses.</i>
ENT V68	ENTEROVIRUS 68	2-4	V	EV D68 is a non-polio virus often seen in Summer/Fall. Mild symptoms include cough, runny nose, fever and muscle aches. Can progress, especially in children, to difficulty breathing and wheezing.
ENT V68	ENTEROVIRUS 69	2-5	V	<i>Most known to cause respiratory symptoms and suspected of being one of the varieties most capable of shifting to Polio.</i>
ENT V70	ENTEROVIRUS 70	2-5	V	<i>The virus has been associated with conjunctivitis along with Coxsackie A24. Myalgia, headaches, sore throat, nausea, vomiting, mild abdominal discomfort and diarrhea have been sometimes reported.</i>
ENT V71	ENTEROVIRUS 71	2-4	V	A form of meningitis most known for monoplegia (one limb or one side paralysis).
ENT V72	ENTEROVIRUS 72	2-5	V	<i>Considered the basis of Hepatitis A, although we find this has a distinctly different vibration than Hepatitis A</i>
ENT V73	ENTEROVIRUS 73		V	One of several virus thought to trigger or cause Diabetes Type 1
ENT V74	ENTEROVIRUS 74	2-5	V	<i>This was named as the cause of Acute Infant Paralysis in New Zealand, although there is confusion as to the exact identification.</i>
ENT V75	ENTEROVIRUS 75		V	Just as Poliovirus is an enterovirus that rarely enters the central nervous system (CNS), enterovirus 75 rarely enters the CNS as an acute encephalitis. Otherwise it mildly inflames the intestines until mineral corticoids and glucocorticoids (from the adrenals) feed the virus causing significant inflammation and abdominal swelling.
ENT V76	ENTEROVIRUS 76	2-5	V	<i>Little is detailed in science as to specific symptoms. In general enteroviruses are known to cause intestines and respiratory symptoms with possible conversion to polio viruses. This virus has been found also imitating hepatitis.</i>
ENT V77	ENTEROVIRUS 77	2-5	V	<i>Little is detailed in science as to specific symptoms. In general enteroviruses are known to cause intestines and respiratory symptoms with possible conversion to polio viruses. This virus has been found also imitating hepatitis.</i>
ENT V78	ENTEROVIRUS 78	2-5	V	<i>Little is detailed in science as to specific symptoms. In general enteroviruses are known to cause intestines and respiratory symptoms with possible conversion to polio viruses. This virus has been found also imitating hepatitis.</i>
ENT V79	ENTEROVIRUS 79		V	Just as Hepatitis A was reclassified as Enterovirus 72 (approx 1982), we find Enterovirus 79 should be classified as an unrecognized (2/15) hepatitis, similar in effect to Hepatitis B (currently Hepadnavirus Type 1).
ENZ GEN	ENZYME GENERATE		VB	Fanconi's Syndrome-Inherited in Parathyroid. Helps unblock many organs by correcting calcium balance.
FAL GRP	FALL GRIPPE 2002		VBF	It looks like a cold. It feels like a cold. It is not a cold. Another chemtrail with runny nose, sneezing, occasional to frequent cough. Lymph and lung tissue swell, making breathing difficult at night.
FFF	FAST FLU FIGHTER		V	Starts to work in 20 seconds and completes in 30 minutes. So far,if it doesn't work, there's no or only partial flu.
FIBRO	FIBROADENOMA		V	Another common cause of lumps in the breasts and uterus.
FING FS	FINGER FISSURES		V	A virus that causes splits in the skin near the tips of the fingers especially in cold weather with repeated wetting of hands.
FLE WEK	FLEA WEAK		VB	A tick-like disease inflicted by a flea bite. Extreme weakness, usually with mental confusion, myalgia and arthritis like pains. Great tiredness interspersed with occasional good days.
FLU M	FLU MIASM		V	A miasm that may combine with issues from the lungs to the kidneys
FOS FEV	FOSSIL FEVER		VB	A form of hanta virus most associated with the dust conditions of North and South Dakota. Strongly affects respiratory area with lingering tiredness and occasional fever.
FUJIAN	FUJIAN VIRUS		V	The virus masquerading as a flu throughout the Western world during the October to December area of 2003. It is known to kill. It has a reputation of seeming to have gone away while still lurking in the system.
GB SKIN	GALL BLADDER SKIN		VB	Bacterial infection in gall bladder preventing the absorption of Vit D and oils into dry skin
GB VIR	GALL BLADDER VIRUS		V	Papilloma and chlamydia love to congregate in the gall bladder with other viruses and thwart evacuation of stones. See also TYFD M.

GAN VIR	GANGLION VIRUS		V	Essentially this is the HIV virus that hides in the ganglion, like the culprit retrovirus, so for the sake of AIDS tests, we should eliminate it.
GB SALM	GB SALMONELLA		VB	Chicken/egg based salmonella bound by same type of virus as found in diverticulitis. Either love or hate eggs.
GB SWEL	GB SWELL		VBF	Common combination of pathogens led by paramyxovirus that makes the gall bladder inflamed and problematic.
GLOOB	GLOOB		VBF	Tuberculosis-based group turning all effluences (sweat, lymph, etc.) of body into glue-like mixture that doesn't metabolize out and collects in body weight.
GOITER	GOITER		VB	Swelling of thyroid, sometimes prominent. Often mixed with other thyroid and parathyroid problems
GOV SSF	GOVERNMENT SEQUEL - SPANISH FLU		VB	In Aug, 2002 another series of chemtrail maladies started with the normal respiratory coughing, sore throat, tiredness, nausea, eye achiness, spine weakness.
HANTA	HANTA VIRUS		V	In clinical form a deadly hemoragic Virus. In subclinical form it also attacks respiratory, sinus, and thyroid areas. Occasional nose bleeds are common. It is serious when you start coughing up blood.
HAP PAN	HAPPY PANCREAS		V	Infection of the pancreas causing sugar desires, blood sugar imbalance and attitude that happiness is hard to find
HASHIM	HASHIMOTO'S		VFP	This supposed thyroid disease is actually a disease of the parathyroid.
HEM INV	HEMATOPOIETIC INFECTIOUS NECROSIS VIRUS		V	A species of the Rhadinovirus that causes necrosis of the hematopoietic tissues of spleen and kidneys in trout and salmon. It tests as transferable in the use of fish cells in genetically altered food. One lady reported painful swelling above both knees and on the top of both feet. Swelling went down and the pain ceased in 1 dose.
HEP PNM	HEPAPNEUMONIA		V	A form of pneumonia (brought in through the lungs) which gets inside the cells of the liver and reacts to air conditions.
HEP A	HEPATITIS A		V	Hepatitis A in the liver causes mal-digestion and slightly lower energy .Residue can remain for long time. See also SE HALF, SE FULL.
HEP B	HEPATITIS B		V	Hepatitis B in the liver causes mal-digestion and, (in active cases) yellowing of skin. Residue can remain for long time. See also SE REAL.
HEP C	HEPATITIS C		VB	A retrovirus bound by a fusarium bacteria. Often seen with Aflagot.
HEP C1	HEPATITIS C1		VB	Recently the regular Hepatitis C formula hasn't been enough because of fairly new complications. Check both, especially after vaccinations
HEP D	HEPATITIS D		V	Seemingly rare form of Hepatitis
HEP F	HEPATITIS F		V	One of many forms of liver swelling from infection.
HEP G	HEPATITIS G		VB	This form combines the retrovirus with Calymmomato Granuloma, giving the person occasional thoughts (perhaps actions) of a nasty behavior.
HEP I	HEPATITIS I		V	Variation of Hepatitis from mutations
HEP J	HEPATITIS J		V	Variation of Hepatitis from mutations. Part of Pulmonary Aveolar Proteinosis.
HEP L	HEPATITIS L		V	Liver and adrenal condition involving common bacteria. Blocks hormones to heart, related to Amyloidosis
HEP O	HEPATITIS O		V	A special condition of the liver that, when combined with CLS DIF or CLS PER, causes a crab, pincer-like movement of the hand. It looks like Parkinson, except the thumb moves independently towards the fingers.
HEP RVE	HEPATITIS RVE		VB	A newly discovered form of hepatitis that binds retro virus in liver.
HEP X-2	HEPATITIS X-PART 2		VBF	A group of pathogenes that gather around HEP X and make the liver swell and dysfunction.
HG TOO	HERPES GENITAL TOO		V	The non-herpes part of Herpes Genital.
HRP VRN	HERPES VIRNAE DISEASE		MVB	Bones make a "protoporphyrin" (invented name 10/06) that catalyzes iron and cleanses cytokines of infectious debris. This thymus disease kills the bone-made substance (proto protoporphyrin) so that engorged cytokines stay in blood and tissue. They usually make all substances swell, mimicking fat, blood and tissue. When liver and spleen swell there is ascites. NOTE; Protoporphyrin makes heme and bile. Bile makes cholesterol.
HRP MYE	HERPESVIRIDAE MYELOSIS		MVB	An almost universal inherited bone disease. The herpesviridae family includes the normal herpes viruses, including Chicken Pox, Cytomegalovirus, Epstein Barr, Measles, Mumps, Rubella, Smallpox, Etc.. From the bones this disease rides lymphocytes to the thymus. The thymus expresses them as childhood diseases and much more after 50. Removing this disease especially helps the thymus and thyroid.
HRM REG	HORMONE		VB	A bacteria /virus combination may block the body's ability to produce estrogen, progesterone and testosterone.
HPNMV	HUMAN PNEUMOMEGALOVIRUS		V	Like CMV, this virus locks into the lymph trapping oxygen around cellular fluid

HTLV #1	HUMAN T-CELL LYMPHOTROPIC VIRUS #1		V	The virus is most associated with Tropical Spastic Paraparesis which resembles MS because of the thoracic myelopathy. Initial symptoms include weakness or stiffness in one or both legs, back pain and urinary incontinence. Sensory changes are usually mild, but peripheral neuropathy may develop. Patients display lower limb weakness or all limb weakness with spastic movements (like those seen in Huntington's), ankle contractions and big toe upward contractions (extensor plantar responses). Cognitive functions are usually spared and cranial nerve abnormalities are unusual. Lesions appear on MRIs in the white matter and paraventricular regions of the brain. Spinal meningitis and cord parenchyma contain an inflammatory infiltrate with myelin destruction. Best taken with TD-Tetanus/Polio or TD CP/Polio.
INSOM	INSOMNIA		VB	Rota virus, along with several other constituents sticks in the liver. Check also RAD ENT.
INS FOL	INSULIN FOWLER		VB	A group of pathogens that prevent insulin from converting blood sugar. Usually they are a complication of INSLM or TBR INS.
JPH ENC	JAPANESE ENCEPHALITIS	2-5	V	<i>A hemorrhagic fever. In people who develop severe disease, after a 3-5 day incubation, initial symptoms include fever, chills, headache, fatigue, nausea and vomiting. The disease can progress to inflammation of the brain (encephalitis) and is often accompanied by seizures. Coma and paralysis occur in some cases. This disease is most prevalent in Southeast Asia and East Asia.</i>
JMP STR	JUMP START		V	When the immune system is very low and a quick rejevination of the infection-killing T-Cells is needed, this may jump start the battery of healing.
KID REL	KIDNEY RELEASE		VF	Penicillin and aflagot, among others, combine to impair kidney function.
LRBC	L/R BRAIN CONNECTION		VB	Perceptual and thinking blocks caused by drugs (legal or not) in Corpus Callosum and Temporal Lobe.
LANGAT	LANGAT VIRUS	1-3	V	This is a flava hemorrhagic fever virus centered in Malaysia and Thailand. Known for encephalitis.
LRN SPK	LEARNING SPARK		VF	The most common complications to set into a vaccination-injured child. Often taken with VAC BRN and PIT CLK. Subjects usually have great apathy to school work and little interest in using their intellect, except in areas where they have emotional interest.
LIV DTX	LIVER DETOX		VB	Complex chemicals including wood alcohol, kojic acid, drugs, etc. collect in the liver. See also CHEMX.
LV NV VR	LIVER NERVE VIRUS	1-5	V	One of the liver components of the Liver Exhaustion Disease. It depletes the liver and the immune system of the subject.
LV VR A	LIVER VIRUS A	1-5	V	One of the liver components of the Liver Exhaustion Disease. It depletes the liver and the energy of the subject.
LV VR B	LIVER VIRUS B	1-5	V	One of the liver components of the Liver Exhaustion Disease. It depletes the liver and the energy of the subject.
LIV VR Z	LIVER VIRUS Z	1-5	V	Liver Virus Z combines Liver Virus A and Liver Virus B in the Liver Exhaustion Disease.
LOS MUS	LOOSE MUSCLE VIRUS		V	Lymphotropic virus behind sagging muscles. Use with PSR MED for prolapsed uterus and other muscles.
LW TRD	LOW THYROID		VB	Used after Fluoride and/or Thyroid virus. Accompany with 1-3 dulse pills per morning.
LF GH 1	LYMPHOCRYPTIC GAMMA HERPESVIRDAE		V	A DNA virus (like Epstein Barr and Small Pox) that undermines the lymphatic system especially and other organs randomly.
LF GH 2	LYMPHOCRYPTIC GAMMA HERPESVIRDAE		V	A DNA virus (like Epstein Barr and Small Pox) that undermines the lymphatic system especially and other organs randomly.
LF GH 3	LYMPHOCRYPTIC GAMMA HERPESVIRDAE		V	A DNA virus (like Epstein Barr and Small Pox) that undermines the lymphatic system especially and other organs randomly.
LF GH 4	LYMPHOCRYPTIC GAMMA HERPESVIRDAE		V	A DNA virus (like Epstein Barr and Small Pox) that undermines the lymphatic system especially and other organs randomly.
LCM	LYMPHOCYTIC CHORIOMENINGITS	3-7	V	<i>This is a rodent bourne areno virus infection that presents as meningitis, aseptic meningitis, encephalitis or meningoencephalitis. It can often be passed when cleaning an area where mice have left fesces or dried urine. The dried remains make an airbourne carrier. Symptoms usually occur 8-13 days after infection. Symptoms typically begin with any or all of the following symptoms: fever, malaise, lack of appetite, muscle aches, headache, nausea, and vomiting. Other symptoms appearing less frequently include sore throat, cough, joint pain, chest pain, testicular pain, and parotid (salivary gland) pain. Following a few days of recovery, a second phase of illness may occur. Symptoms may consist of meningitis (fever, headache, stiff neck, etc.), encephalitis (drowsiness, confusion, sensory disturbances, and/or motor abnormalities, such as paralysis), or meningoencephalitis (inflammation of both the brain and meninges). LCMV has also been known to cause acute hydrocephalus.</i>
LYM VIR	LYMPHOTROPIC VIRUS		V	Very much like the European form of Chronic Fatigue Syndrome.

MSTADN	MASTADENO VIRUS		V	Associated with formation of great mucous in the nose and throat.
MEM NRV	MEMORY NERVE VIRUS		V	Scientifically unidentified virus that paralyzes nerve path of memories in Epithalamus. Also weakens pineal, which attracts to the brain aluminum and fluoride. Frequently used with NRV FUL.
MET PAR	METABOLIZATION PARALYSIS DISEASE		VB	Mosquito-carried disease that paralyzes the nerves to the liver and endocrine glands. Not yet identified by science, this can be transferred by birth in active or dormant stage.
MIL AID	MILLENNIUM AID		VBC	Chemtrail bombings on the US. Causes great tiredness and highly decreased immune system. Does not go away by itself.
MIL BUG	MILLENNIUM BUG		VBC	This year's combination that looks like the flu, but isn't specifically a flu (actually no flu in it).Pneumonia, chemicals bacteria.
MIL COF	MILLENNIUM COUGH		VF	Combination of nerve virus and fungus that keeps you coughing and coughing and coughing. Same fungus that causes Valley Fever.
MIL FAL	MILLENNIUM FALLOUT		VB	Headaches, cough, nausea, intermittent fevers/chills that makes you want to stay in bed and forget the world. Flu "look-alike"
MIL MAL	MILLENNIUM MALAISE		VB	Flu like nausea that makes you feel generally sick, but not immobile.
MLDM HR	MULTIDIMENSIONAL HEARING		VB	Unblocks the thalamus to allow inner hearing on many levels. You may need to relearn the distinction of what and who you hear so that you use what you hear correctly. This is not aimed at physical hearing.
MUS NRV	MUSCLE NERVE DEGENERATION		VF	Animal-based virus that locks on to the nerves of muscles and slowly withers them. Often accompanied by sore muscles after exertion.
MF HELP	MYCOSIS FUNGOIDES HELPER		VBF	The most common add-on infections stemming from Mycosal Fungoides. Usually adeno carcinoma with a retrovirus accompanies.
MST ART	MYSTERY ARTHRITIS		VB	An unidentified form of arthritis that also affects thyroid and kidneys. Often used with ANK SPN.
MYX MIX	MYXOVIRUS MIXED VIRUS		V	A genetically altered myxovirus used as a base for vaccinations. The myxovirus is reported as the base virus for measles, mumps and rubella. This altered virus devastates the thymus causing a plethora of nerve and brain "killer cells" to be manufactured by the thymus.
NASELY	NASOPHARNYX		VBF	Virus/bacteria/fungus combination causing clogging that promotes snoring (see SNOR) and "snort-up" in the morning
NRV CHM	NERVE CHOMPER		V	A necrotic nerve virus that may be at the heart of all nerve diseases. We have been unable to find a parallel in medical books.
NRV NEW	NERVE NEW		VB	Motor control problems of brain/Hypothalamus. Shaking issues.
NRV NUM	NERVE NUMB		VF	Numbness usually felt in the extremities (feet or arms/fingers), yet without the precipitating cold weather of Raynauds. Can eventually be deadly.
NRD MPS	NEURONEURD MUMPS		MVB	A mumps infection of nerve nodes
NRD POL	NEURONEURD POLIO		MVB	Neuroneurds are small nodules in the nerve fibers that have an intelligence of their own. They help perception and (deep) memories. In an infected state they suppress and/or direct emotions plus hold (almost subconscious) fears.
NRD RUB	NEURONEURD RUBELLA		MVB	Neuroneurds are small nodules in the nerve fibers that have an intelligence of their own. They help perception and (deep) memories. In an infected state they suppress and/or direct emotions plus hold (almost subconscious) fears. First found as a key element in vision improvement.
NIT OWL	NIGHT OWL		VF	Somehow the person always finds something to do well past the hour they would like to get to bed, but just can't get to bed. Rota based formula
NO SWET	NO SWEAT		VB	For the bacteria and retrovirus that makes perspiration very rare when others are perspiring easily.
NOD NOD	NOD NOD		VBF	Fungus, virus, bacteria combination that seems to shut down adrenals causing anywhere from narcolepsy to drowsiness.
NOR NOC	NORDIC KNOCK 2002		VBC	A wide/spread sickness hitting Norway in January 2002, resembling a deep flu with fever and prostrating malaise. Its contents include some radiation toxicity which suggests it is in the air because someone is making atomic weapons.
NORO	NOROVIRUS		V	Noroviruses are the most common cause of viral gastroenteritis in humans and affect people of all ages. Norovirus infection is characterized by nausea, forceful vomiting, watery diarrhea, and abdominal pain, and in some cases, loss of taste. General lethargy, weakness, muscle aches, headache, coughs, and low-grade fever may occur. It is most similar to Norwalkvirus.
NORWLK	NORWALK		V	A viroid characterized by tiredness in the spine.
OPN HRT	OPEN HEART		VBF	Combination used to open arteries and capillaries from cholesterol deposits. Used successfully in Europe since 1996.
OR MYX	ORTHOMYXO VIRUS		V	Virus often found complicating infections in the thymus.

ORMXRE	ORTHOMYXOREO VIRUS		V	Virus often found complicating infections in the thymus.
ORTHO	ORTHOVIRUS		V	Virus often found complicating infections in the thymus.
OV TES	OVTES VIRUS		VF	Ovarian/Testicle virus involving chlamydia, etc.
PAPL	PAPILLOMA		V	Wide spread virus, usually of the genitals. Leading cause of cervical cancer. Formula includes cervical polyps.
PRMS	PARA MS		VP	Combination of Giardia and Nerve Viruses commonly see as dark spots by MRIs and mistaken for Multiple Sclerosis.
PAR MYX	PARAMYXOVIRUS		V	A missing link in some if not most of prostate cancer. Still also need X-40 Kit, Bon Inf +
PTRD VR	PARATHYROID VIRUS		V	Parathyroids control calcium distribution (Kidney Stones) and can drain Thyroid (hormones, energy)
PEV3	PARECHOVIRUS (H HPeV) Type 3		V	Since approximately 1999 this picornavirus has become the most common cause of viral meningitis in European children and young adults.
PEN MSL	PENICILLIN MEASLES		FV	A liver infection that usually leaves the subjects with financial lack they can't seem to rise above. Taking the remedy seeks to remove an obstacle to financial abundance.
PCH CX 1	PICHINDECOMPLEX 1		VT	The Pichinde virus in nature is a subspecies of the Tacaribe Virus which is a subspecies of the Old World Arenavirus group. Arena viruses are usually serious, hemorrhagic viruses. Although the Pichinde Virus is officially purported to not infect mammals, bioengineering from the 1940s makes this toxic infection common in Thyroids and Thymuses. Complex # 1 is common in Asia and Africa.
PCH CX 2	PICHINDECOMPLEX 2		VT	The Pichinde virus in nature is a subspecies of the Tacaribe Virus which is a subspecies of the Old World Arenavirus group. Arena viruses are usually serious, hemorrhagic viruses. Although the Pichinde Virus is officially purported to not infect mammals, bioengineering from the 1940s makes this toxic infection common in Thyroids and Thymuses. Complex # 2 is common in Europe.
PCH CX 3	PICHINDECOMPLEX 3		VT	The Pichinde virus in nature is a subspecies of the Tacaribe Virus which is a subspecies of the Old World Arenavirus group. Arena viruses are usually serious, hemorrhagic viruses. Although the Pichinde Virus is officially purported to not infect mammals, bioengineering from the 1940s makes this toxic infection common in Thyroids and Thymuses. Complex # 3 is common in North and South America.
PG PARV	PIG PARVO		V	Pig-born parvo virus attacking brains of humans, usually through fish infected by Pfiesteria Piscicida
PT PAP A	PITUITARY PAPILLOMA ASTER		V	Growth inside the tiny pituitary that thwarts pituitary function and highly contributes to excess weight and other pituitary malfunctions
POL CAR	POLIO CARCINOMA		V	Different form of carcinoma, yet to be medically identified, that suppresses organ function, especially thyroid.
PG BVN	POLIO GROUP BOVINE		MV	Clothes are very sensitive to the skin. Subjects often strongly prefer to sleep only on their back with legs straight.
PG RBT	POLIO GROUP RABBIT		MV	The disease causes nerve and dura contractions in the spine, skull, intestines. The subject often lies in contorted positions to stretch nerves. Some subjects fear the dark and fear seeing dead people.
PG SQRL	POLIO GROUP SQUIRREL		MV	Causes muscles to split, like a tear, with exertion. Muscles feel numb.
POL PNM	POLIO PNEUMONIA		VB	Another of the virus combinations that may be associated with Multiple Sclerosis and other Central Nervous System conditions
POLYOM	POLYOMA VIRUS		V	A precursor to the papilloma virus, this virus creates a "halfway" status to cancer. Commonly found with hypothalamus remedies and sporadically seen in other compromised conditions.
POL NOS	POLYPS-NOSE		VF	The kind of polyps that block breathing and give nasally sound to voice. They seem to always grow back after removal operations.
PRS CAP	PROSTATE CAPSULE SWELLING		VF	Common viral/fungal combination that causes the prostate capsule (covering sheath) to swell and mimic the swelling of the whole prostate
PRP BLT	PURPLE BLOTCHES		VB	A flu/pneumonia like malaise that is accompanied by an increasing number of purple blotches. It looks like the "purpura" (bruising) often seen with seniors, except that these blotches can be on people of all ages in all places on the body. This non-chemtrail, but government-made infection is very dangerous. Often it is seen with Ebola Reston which causes swelling and head stuffiness.
QTR COF	QATAR COUGH	1-3	CV	In 9/12 this new variety of an old cold virus emerged in Qatar and Saudi Arabia. It is compared to the 2003 SARS virus with less severe symptoms. The symptoms include cold and flu-like malaise with the unusual feature (for the corona virus at its heart) of kidney failure.
REO	REO		V	A mysterious virus that seems to couple with Coccidioidomycosis (SAD) in the pineal.

RSV	RESPIRATORY SYNCYTIAL VIRUS		V	Respiratory Syncytial Virus commonly caught by babies in pediatrics wards, carrying into adult respiratory problems.
RV ANDY	RETROVIRUS ANDROGENS		V	A retrovirus often seen with lumps on endocrine glands.
RV BACT	RETROVIRUS BACTY		V	Rare retrovirus that combines with bacteria, instead of viruses, to turn your good cells into bad.
RV BLDY	RETROVIRUS BLOODY		V	Initially seen with reticulocyte sarcoma and reticulocyte carcinoma.
RV BUMP	RETROVIRUS BUMPY		V	Retrovirus most known to get in nodules on bone joints causing pain to the touch.
RV CAPY	RETROVIRUS CAPSULE		V	A retrovirus most commonly used with CAPSULE CARCINOMA.
RV CELL	RETROVIRUS CELL		V	This is the parent retrovirus of all retroviruses (except RVEB and RET RAD). It is equivalent to Rife's discovery of a cancer virus.
RV CLOG	RETROVIRUS CLOGGY		V	Undiscovered retrovirus in medicine connected to snoring, sleep apnea, metabolizing and low blood pressure (w/MAAD, MEN_)
RV CRNK	RETROVIRUS CRANKY		V	Often involved in massing/tumor issues of brain and heart - but not exclusively to these organs
RV DENY	RETROVIRUS DIENCEPHALON		V	Rare retrovirus found only in diencephalon (hypothalamus. thalamus. epithalamus)
RV ENZY	RETROVIRUS ENZYMES		V	An unusual retrovirus that acts like any other retrovirus and may especially be drawn to situations that highly involve enzyme production.
RVEB	RETROVIRUS EPSTEIN BARR		V	Common combination seen with bones, AIDS and some forms of cancer
RV FOAM	RETROVIRUS FOAMY		V	Spumavirnae Retro -Often involved in massing/tumor issues with little specifics known
RV GLIA	RETROVIRUS GLIA		V	A specialized retrovirus applying to lumps on nerves. The virus causes burning in the nerves like nickel causes a burning feeling in the blood stream.
RV GLLN	RETROVIRUS GLIAL LINING		V	A retrovirus for the grouping of glial cells that feed the nerves at the nerve surface. Similar to RV Glia, but more specific. Often used with nerve remedies and Ependymoma remedies.
RV HOMY	RETROVIRUS HOMY		V	A retrovirus usually seen in the head, in the home of the nerve and hormonal area.
RV ISY	RETROVIRUS ISOTOPE		V	A retrovirus usually seen with radiation diseases or conditions, such as Radiation Mitoplasmoma.
RV LENT	RETROVIRUS LENTI		V	Well known, slow acting retrovirus suspected in lymphatic issues with inconclusive scientific proof
RV LUMP	RETROVIRUS LUMPY		V	Retrovirus known to complicate inner tumors of the adrenals and thyroid. Included in the MEN remedies
RV LMF	RETROVIRUS LYMPHY		V	Supposed uncommon retrovirus of a supposed bird origin and known to be in bird lymph systems.
RV MITY	RETROVIRUS MIGHTY		V	Primarily for parathyroid adenoma but seems to like lumps that cause deterioration.
RV NERV	RETROVIRUS NERVY		V	May have strong implications with some nerve diseases
RV NEW	RETROVIRUS NOUVEAUX		V	Unclassified retrovirus that is associated with antibiotic shots
RV PLSM	RETROVIRUS PLASMA		V	Usually used in Plasmalymphomas and Plasmalymphocytomas.
RV POLO	RETROVIRUS POLIO		V	Since polio means "gray matter of nerves", this is a very specific nerve retrovirus
RV PUSH	RETROVIRUS PUSHY		V	Often involved in massing/tumor issues of brain and thyroid - but not exclusively to these organs
RV RTIC	RETROVIRUS RETICULA		V	Retrovirus first found with Leioreticuloma and believed to be exclusive to reticular formations.
RV ROUS	RETROVIRUS ROUSY		V	The first retrovirus demonstrated to cause a malignant tumor
RV SCRN	RETROVIRUS SCRUNCHY		V	An unclassified retrovirus first found holding papilloma in reproductive organs
RV SHIF	RETROVIRUS SHIFTY		V	Retrovirus that seems to move around taking its problems from one organ to another
RV SQEL	RETROVIRUS SQUELCHY		V	Undiscovered retrovirus that seems to squelch otherwise good hormones. First used with HW Suppressor relevant to adrenals
RV STEM	RETROVIRUS STEAMY		V	Retrovirus involved in weight holding. Steams up the people who want to lose weight
REV	REVIVE		VB	Very serious liver and liver-related diseases need to revive. Very powerful.
RICKO	RICKO VIRUS		V	A virus lodges in the gall bladder thwarting its ability to assimilate vitamin D and feed the bones (and prostate)
ROTA	ROTA VIRUS		V	Frequent cold/flu like debilitator world wide that prefers to attack in late summer/early fall.
RUBLA	RUBELLA		V	The virus found in our thymuses that is also called German Measles. It is in the vaccination, MMR. In various forms the virus affects the central nervous system and other nerves.

RSSE	RUSSIAN SPRING SUMMER ENCEPHALITIS	2-4	V	<i>Russian Spring Summer Encephalitis, AKA Tick-borne Encephalitis (TBE), is a virus disease found throughout central Europe, parts of Scandinavia, the Baltic countries, Russia and a belt through Siberia. The virus can infect the brain (encephalitis), the meninges (meningitis) or both (meningoencephalitis). In general, mortality is 1% to 2%, with deaths occurring 5 to 7 days after the onset of neurologic signs. Symptoms are nonspecific and may include fever, malaise, anorexia, muscle aches, headache, nausea, and/or vomiting. After about 8 days of remission, a second phase of disease occurs in 20% to 30% of patients. These patients may experience a clinical illness that involves the central nervous system with symptoms of meningitis (e.g., fever, headache, and a stiff neck), encephalitis (e.g., drowsiness, confusion, sensory disturbances, and/or motor abnormalities such as paralysis), or meningoencephalitis.</i>
SLT VIR	SALT VIRUS		V	From the current processing of salt a minute amount of radiation produces a virus that paralyzes the thyroid
SARS MS	SARS MOSQUITO		VB	The symptoms are like a cold with a hacking cough that won't go away. Considerable clear to lightly green phlegm is coughed up, but it never feels like it fully evacuates the lungs.
SPT CON	SEPTUM		V	First found in the heart septum as a gradual contraction that impaired heart function over time.
SARS	SEVERE ACUTE RESPIRATORY SYNDROME		V	In March of 2003 this infection was identified as coming from China. Multiple people in a treating hospital died in a short period as did some travelers. The cause has been debated with some political health complications. We find this to be a paramyxovirus and not anything else.
SINO #1	SINUS INFECTION		VB	One of several common infections of the sinus. This one involves Respiratory Syncytial Virus along with Serratia +
SKN NRV	SKIN NERVE VIRUS		V	Contributes to some skin conditions that are not solely bacterial or fungal.
SLP SPR	SLEEP SPURTS		VB	Catches sleep in bits and pieces. Rota based formula
SPS	SMALLPOX SPINE		V	Herpes Variola in the spine (not yet identified in science 8/05). As Herpes Zoster (shingles) comes from chickenpox residue in the spine, so does Herpes Variola come from Smallpox in the spine. It most affects appendix, gall bladder and thyroid.
SNW VIR	SNOW VIRUS		V	Calciavirus (like Norwalk) causing gastrointestinal problems, shallow breathing when in the nerves of the diaphragm, kidney weakness, mimics arthritis in hips and ankles. Active in cold weather, carried by moisture, although not dependent on snow.
SPN CLN	SPINE CLEAN		VB	Spine Clean - Homeopathic of successful herbal combination to clear MS, MD, Huntington's, Parkinson's, Epilepsy.
STL ENC	ST LOUIS ENCEPHALITIS	2-4	V	<i>The majority of infections result in mild illness, including fever and headache. When infection is more severe the person may experience headache, high fever, neck stiffness, stupor, disorientation, coma, tremors, occasional convulsions and spastic paralysis. Fatality ranges from 3–30%. Aged people are more likely to have a fatal infection. Infections are most commonly seen in the mid United States where the first outbreak was found in St</i>
STEN VR	STENOSIS VIRUS		V	There is a virus that contracts heart valves, pulmonary arteries, parts of the pituitary channels and more.
STRS WT	STRESS WEIGHT		VB	Weight caused by a drain on the pituitary and adrenals that gathers pathogens of depletion.
SUG BIT	SUGAR BITTER		VB	A pancreatic growth that turns the sweetness of life into a bitter resentment. The physiological disruption of sugar absorption shows as mood swings, isolationism and frequently the inability to enjoy life.
SUG POX	SUGAR POX		VF	A dislike of more than small quantities of sugar coupled with an inability to digest sugar are primary symptoms. The sugar block weakens the conversion of serum dross to lymph, weakens healing ability and depletes the special sugar needed for nerves.
SUL SEN	SULFUR SENSITIVITY		VB	A common variety of pathogens in the liver that helps with the digestion of sulfur-rich food and helps with some skin issues involving sulfur
SWT VIR	SWEETNESS VIRUS		V	Herpes # 4 with coxsackie, usually found in the pancreas, adrenals. One of 2 remedies to shorten miasm remedy time. See also DRG VIR.
SWN GRP	SWINE GRIPPE		V	Two viruses that seems to weaken and prostrate victims, often with heart attacks as a side effect.
T COX A	TEETH COXSACKIE A	2-6	V	Unusual infection usually centering around Bucosal Mucosa mouth/jaw infections
T CMV	TEETH CYTOMEGALOVIRUS		V	A ubiquitous virus of mononucleosis fame that also affects teeth nerves.
T POLIO	TEETH POLIO		V	Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.

T SML PX	TEETH SMALL POX		V	Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.
TAP	TEMP ADRENAL PARALYSIS		VB	Paralyzed emotional shock (often very old) that instigates so many latent diseases.
TMS FEV	THYMUS FEVER		V	Thymus and thyroid are both affected by thymus fever. Often seen with long history of illnesses.
TMS OPN	THYMUS OPEN		VF	Fever/fungus (actinomycosis) blocking immune system
TMS SRG	THYMUS STRONG		VP	One of the strongest boosts to immunity we've discovered yet, especially when the immune system is compromised.
TRD CLR	THYROID CLEAR		VC	Antidote to a little-known virus and the aluminum, flouride and chlorine that it traps in the thyroid. Hypofunctioning thyroid lead to tiredness and weight.
TRD DPR	THYROID DEPARALYSIS		VT	The vaccination for hoof and mouth disease seems to attract a paralyzing virus to our thyroids, adrenals and reproductive glands. In combination with other viruses, the result is a hypothyroid. Symptoms include tiredness, weight, lowered immune system, lowered libido, lowered sexual ability, and some loss of drive.
TRD EAR	THYROID EAR		VBF	Adeno/Diphtheria/SAD a combination of thyroid pathogens. Involves ears plus depression, especially in absence of sun.
TRD OPN	THYROID OPEN		VF	Fever/fungus (actinomycosis) of thyroid removal (and this subsequently feeds thyroid). Dulse needed when rebuilding thyroid.
TRD PLS	THYROID PARALYSIS		VB	Nerve bacteria (a form of clostridium) suppressing thyroid. Possible adjunct to cellulitis issues. Also long-term, thyroid-related depression.
TRD REL	THYROID RELEASE		VF	Unleashes thyroid hormones and activities that were blocked by pathogens from carbohydrates.
TRD SRK	THYROID SHRUNK		VB	As implied, the organ literally shrinks and doesn't work well. Area of skin around thyroid appears wrinkled.
TRD SRG	THYROID STRONG		V	A high potency thyroid triple virus. Appx 50% of the population tests for it.
TRD TUM	THYROID TUMOR		VB	Non-inherited infection of thyroid from mycobacteria and virus
TRD VIR	THYROID VIRUS		V	Weakened Thyroids have this like a cold. Check before going to Low Thyroid.
VAC BRB	VACCINATION BRAIN BRIDGE		VB	This combination thwarts corpus callosum bridging of the brain hemispheres. Used primarily for the effect of DPT shots. See L/RBC.
VAC BRN	VACCINATION BRAIN PARALYSIS		VBC	Media of the vaccination plus bacteria gained in the process infects the brain. With autism, add REGRET; with flailing of arms & body, add DISTEMPER; with hyperventilation-like cough, add Bordetella Pertussis.
VAC HBK	VACCINATION HYPOTHALAMUS BLOCK		VB	Primarily blocking the dorsomedial nucleus of the Hypothalamus. Because of the pathogenic combination the person acts almost like they want to be disconnected from society, when they actually are compelled in this direction by the infection. Seen mostly with DPT vaccinations. Use with VAC BRN, PKU.
VAC HBK	VACCINATION HYPOTHALAMUS BLOCK		VB	Primarily blocking the dorsomedial nucleus of the Hypothalamus. Because of the pathogenic combination the person acts almost like they want to be disconnected from society, when they actually are compelled in this direction by the infection. Seen mostly with DPT vaccinations. Use with VAC BRN, PKU.
VAC PAP	VACCINE HUMAN PAPILOMA VIRUS	2-5	T	A very dangerous vaccine, especially for young women. Statistics quote over 100 deaths in the first years and countless major disruption of endocrine/reproductive systems.
VAR ULC	VARICOSE ULCER		VB	Often in leg ulcers and can also be in eyes, heart, pancreas, etc.
VASC PD	VASCULAR POX		MVB	For miasms of measles and hard measles that form varicose veins, spider veins and the basis of angiomas.
VRL BAC	VIRAL BACTERIOPHAGES		VB	Viruses made from the bacteria that they are used to kill are sprayed on food to preserve them. So far there are two groups, one made from listeria and another made from Escherichia Coli (E. Coli). In addition to protecting food from these bacteria, we find these sprays cause weight gain and decreased intelligence.
VRL ENC	VIRAL ENCEPHALITIS		VB	A spinal issue that strongly resembles Polio.
VRL MEN	VIRAL MENINGITIS		V	Virus attacking the covering of the nerves mostly in the central nervous system.
VRL PNM	VIRAL PNEUMONIA		V	Deep respiratory virus that feels like a combination of a cold and a flu. Coughing, sometimes fever and spinal achiness (which are also symptoms for other kinds of pneumonia) See CLM PNM, KLB PNM, PNM RES.
VIROID	VIROIDS		V	Those ultra-small viroids that get into the spinal column causing tiredness, irritability that does not come from personal relationships
VPV	VISCERAL POLYPS		V	Ubiquitous virus that binds with other viruses, bacteria, fungi, residues, miasms.
WHOP FD	WHOOPIG FEDS		VB	Heavy, hacking cough especially when lying down. Phlegm, fever/chills, weakness, stiffness, different aches for different people. Sometimes needs Fusiform Nasopharynx for lingering phlegm. Courtesy of government contrails.

WOR LES	WORRY LESS		VB	For those who unknowingly magnify worry beyond the point of reason. Borna virus based
YF HHM	YELLOW FEVER HORMOHEMORRHAGIC		V	Yellow Fever is a mosquito-carried, blood collapsing disease. It carries a peptide dissolving poison which also destroys hormones like insulin (pancreas) and renin (kidneys). This remedy is designed for the flavivirus that affects blood and the poison that affects hormones.
