## HWS 2021 UPDATE

**DATE:** January 22, 2022

**TIME:** 10am – 5pm eastern time (with breaks included)

**LOCATION:** ZOOM

**COST:** \$400

### **WHAT IS IT:**

This will be a condensed version of the Level 4 seminar. At the beginning of 2021, we implemented community calls and webinars that carried education through the year. This will be an interactive day to cover the most pertinent information.

- **Updates to the Master User Guide**
- **Updates to the Symptom Guide**
- **New, comprehensive Strategy Guide for the Covid Era**
- **New formula review**

It will include our packet of info that is offered annually – all user guides and base material. Several updated strategy guides will be distributed through the year as they are completed.

This event is for practitioners and wholesalers to keep up their education on the most current offerings available.
