

*“We have been given the great duty and honor of being able to reach out into the ethers for information that allows humans to take a huge leap forward in healing.” – David Alan Slater*

Healers Who Share is becoming **Purely Resonance™**!

For decades, Healers Who Share has offered vibrational remedies created from the research and innovation of David Alan Slater. We are now poised to take the next step towards becoming *the* leading name in quantum healing as we grow and broaden the scope of our offerings.

The vast library of vibrationally imprinted waters that you have come to know, and love to use will remain the foundation on which **Purely Resonance™** is built. The pioneering work of developing cutting edge water formulas will stay at the heart of what we do.

Our mission remains to be in service to those that wish to create a life they love. We now feel called to offer expanded services, education and opportunities for transformation on the physical, mental, emotional, and spiritual levels.

Everything we do starts with energy, continues through the waters, and expands through all of us.

We look forward to continuing this journey with you.

Tend to your energy and let your life flourish with **Purely Resonance™**

With love + gratitude,

*Michelle*
